BOOK SYNOPSIS

From the New York Times bestselling author of Star Wars: Lost Stars and Bloodline comes a thrilling sci-fi adventure that Kass Morgan, bestselling author of The 100 series, calls "startlingly original and achingly romantic...nothing short of masterful." Shes a soldier. Noemi Vidal is seventeen years old and sworn to protect her planet, Genesis. Shes willing to risk anything--including her own life. To their enemies on Earth, shes a rebel. Hes a machine. Abandoned in space for years, utterly alone, Abel has advanced programming thats begun to evolve. He wants only to protect his creator, and to be free. To the people of Genesis, hes an abomination. Noemi and Abel are enemies in an interstellar war, forced by chance to work together as they embark on a daring journey through the stars. Their efforts would end the fighting for good, but theyre not without sacrifice. The stakes are even higher than either of them first realized, and the more time they spend together, the more theyre forced to question everything theyd been taught was true.
